Les Lentilles Cylindriques Qualité Laser à Large Bande TECHSPEC® présentent des spécifications de précision pour les applications les plus exigeantes. Ces lentilles sont fabriquées en silice fondue de qualité supérieure et sont conçues pour des applications laser avec une qualité de surface de 20-10. Les Lentilles Cylindriques Qualité Laser à Large Bande TECHSPEC® présentent des tolérances étroites, généralement inférieures à 3 arcmin dans toutes les dimensions. L'intégration de ces lentilles est facilitée par des facteurs de forme carrée permettant des options de montage pratiques.
